### Cycle the Great Continental Divide:

The Great Divide Mountain Bike Route (GDMBR) is a long-distance, off-road bicycle touring route from Banff, Alberta, Canada to Antelope Wells, New Mexico, USA. As of 2016, the route is 2768.4 miles (4455.3 km) long; its length is likely to change over time as the GDMBR is continually being refined. The GDMBR was developed by Adventure Cycling Association and was completed in 1997.[1][2] A set of highly detailed route maps and a guidebook are available from Adventure Cycling.[3]
